Subject: Email and Fall RA

Hello,

Could you please share this with your staff. Thank you.

I am not ignoring your emails. I normally answer them in a reasonable amount of time. Because we are going in to Fact-Finding our office is consumed with the preparation for this endeavor. There is a group of individuals working at lightening speed to meet the deadlines that have been established.

I will be in Lansing Friday and Saturday on union business. Saturday is the Fall Representative Assembly. This assembly is attended by all elected delegates from across the state. The assembly sets the business of the MEA for the year. I am proud to tell you that I have been chosen to be one of the keynote speakers on Saturday. My speech will focus on unionism and nurturing community support, which we all know is the base that strengthens our cause.

My goal is to answer as many emails by Tuesday as I am able to. If you need immediate help call the union office at: 734-207-4454. If the matter can wait, but if it still is very important, you can send it to me as high priority which you can find under send options.

Your understanding is very much appreciated.

Nancy
