**Subject:** PAC Contributions...

Friends,

Just a note to let you know that the PAC envelopes are in and your BR will be coming around to solicit a contribution in the next few days. We are asking for \$40 from each member, a paltry amount when we consider what is at stake and how your MEA came through for you financially during the most recent labor dispute.

Think for a moment about all the decisions that effect you and your work environment-especially those decisions with direct bearing on your economic security: Who do you think makes the following decisions?

1. Your Salary
2. Your Medical Coverage
3. Workers Compensation
4. Length of the School Year
5. Privatization

The list could go on, but you get the message, Now please dig deep and help us help ourselves.
